# ADELINE VINNIFER

UX/UI DESIGNER & DEVELOPER

## PROFILE

My Objective is to learn and at the same time be a part of a dynamic and innovative team of designers & developers in generating products that delight customers.

## WORK EXPERIENCE

### DESIGNER

[ 2018 - Present ]

Teligenz Tech Solutions

A product-based company focused in creating technology to solve problems.

- Responsible for the entire designing process that includes : Brainstorming, User Research, Sketching , Wireframing , User Interfaces , User Experience , Prototyping for both Web and Mobile Trading Applications
- Collaborating with the developers and understanding the entire workflow to come up with a User Interface that allows user to use the product with ease was one of my main duties.
- Led end to end design process of a server monitoring software and an KYC platform application for both Mobile and Web

### PART TIME FREELANCER

- Worked with individual businesses in creating responsive website design and development. Also, worked with startups in creating UX/UI design for applications.
